

Elev8 Centers: Q2 2026 Strategic Diagnosis

Single Harlem pin in NYC addiction treatment. The pin gained ground on every tracked Maps query Jan → Apr. Where the marginal dollar lifts in the next 90 days.

01 Executive Summary

Elev8 is **gaining ground on every tracked Maps query Jan 27 → Apr 22 2026**. Pooled positions across 8 priority queries × 140-cell grid went **+787, zero losses** — the only NYC addiction-treatment pin to gain on all 8 kws in the window. Three queries are saturated at Maps avg rank ≤4 (dual diagnosis 1.98, inpatient drug rehab 3.42, inpatient alcohol rehab 3.39). Organic owns Harlem-anchored queries (rehab harlem pos **1.5**, drug rehab harlem **1.2**, addiction treatment harlem **2.1**, methadone clinic harlem 9.7 climbing). **132,000 monthly commercial volume** already touched in DataForSEO Labs top 100, of which **41% sits at pos 11–30** — one push from page 1.

The plateau read on homepage CTR plus the "we're already winning" Maps read are real but mask the structural ceiling. The homepage is forced to rank pos 11–21 for **9 commercial NYC queries on one URL** (17,100 vol routed through /), **seven commercial services Elev8 delivers have no dedicated page** (MAT / Methadone / Suboxone / Dual Diagnosis / Outpatient general / Substance-specific × 5), and **three declared service-area boroughs are physically unreachable by Maps from one pin** (verified — off top 20 in 89 of 89 out-of-grid SERPs across 10 coords). Next 90 days of lift sit on five levers: **(1)** split the homepage into 4 dedicated NYC landing pages + brand-refocused /. **(2)** Build 3 borough organic hubs (Brooklyn / Queens / Bronx) — GBP-01 Astoria-Oregon typo is P0 prereq for Queens. **(3)** Build the MAT service hub + /services/dual-diagnosis — methadone-clinic-harlem ranks pos 9.7 with no on-site page; dual-diagnosis Maps #1.98 organic pos 19.9 is an unmonetized surface; suboxone-strips blog ranks pos 16 for 15,300 vol with no pull-through. **(4)** Consolidate /suburb/ 64-page sprawl (Harlem alone has 3 competing pages) + UES depth upgrade. **(5)** Redirect content velocity away from new informational doorways into commercial pull-through + authority work.

Three competitive realities to defend against: **NYS Detox** (4.1★ × 8 reviews — cumulative +1,599 across 8 kws, the top single gainer in the field despite tiny review count, mechanism worth a forensic pull), **Ascendant Intensive Outpatient** (5★ × 68, +1,293 cumulative), **Wellbridge Drug & Alcohol Rehab** (UES address — owns UES + Midtown E + Murray Hill cells across 5 of 8 kws, biggest geographic displacement target). One opportunity: **Optimus Center for Recovery NY collapsed –1,444 across all 8 kws**, freeing cells Elev8 absorbed partially. **Q2 spend posture: hold budget, redirect 40 percent of monthly content build away from new informational doorways into the 5 levers plus authority work.**

02 Health Snapshot

GRID POSITIONS GAINED (8 QUERIES)

+787

140-cell grid, zero losses. Only NYC addiction pin to gain on all 8 tracked kws.

MAPS QUERIES OWNED (AVG RANK ≤4)

3 / 8

Dual diagnosis 1.98 · inpatient drug 3.42 · inpatient alcohol 3.39. Defend + extract.

HARLEM ORGANIC OWNERSHIP

pos 1.2 – 2.1

rehab harlem · drug rehab harlem · addiction treatment harlem. The owned moat.

HOMEPAGE COMMERCIAL OVERLOAD

9 kws @ 11–21

17,100 vol on one URL. Cap on top-10 ceiling for any one query family.

"UPPER EAST SIDE REHAB"

13,200 vol @ 24

/suburb/upper-east-side one push from page 1. Wellbridge owns same geography Maps-side.

GBP SERVICE-AREA TYPO

"Astoria, OR"

Service area lists Astoria OREGON, 2,400 mi from Harlem. P0 one-line owner fix.

03 Eight-Query LD Grid Baseline (Jan 27 → Apr 22 2026)

DataForSEO Local-Dominator 13×13 grid (140 cells returned) centered on Harlem pin coord 40.8158, –73.9421. Per-cell rank delta summed across cells visible both dates. Positive = positions gained.

Keyword	Pos gained	Avg rank Jan → Apr	Cells both dates	Status
dual diagnosis treatment centers nyc	+28	2.18 → 1.98	140	Owned
inpatient alcohol rehab nyc	+51	3.75 → 3.39	140	Owned
inpatient drug rehab nyc	+60	3.80 → 3.42	139	Owned
addiction rehab ny	+75	4.09 → 3.56	140	Climbing
alcohol rehab nyc	+191	5.16 → 3.79	140	Climbing
alcohol rehab near me	+154	6.68 → 5.57	138	Climbing
addiction treatment nyc	+189	8.13 → 6.61	125	Climbing
detox near me	+39	5.59 → 5.47	137	Stuck
TOTAL	+787 —		1,099	Only NYC pin gaining on all 8

Three queries saturated on Maps (avg rank ≤4). Four climbing in the conversion-relevant rank band (avg 3.5–6.6). One stuck — detox near me: Elev8 ranks #14 on the gainer leaderboard despite holding 137 cells; NYS Detox gained 4× more on the same query (mechanism worth a forensic pull, likely category/service-expansion behavior, not review volume).

04 Service-Area Priority Matrix & Critical Issues

Cluster	Dist	Q2 priority	Critical issue	Severity
Harlem (pin) — Central/East/West Harlem + Hamilton Hts + Sugar Hill + Morningside Hts + Wash. Hts	0 mi	Defend	Homepage forced to rank for 9 commercial NYC kws (17,100 vol on /)	P0
UES — Lenox Hill (10021), Yorkville (10128), Carnegie Hill	1.8–2.6 mi S	Push	GBP service area "Astoria, OR 97103" (Astoria OREGON, 2,400mi from Harlem)	P0
Bronx — Mott Haven (10454), Highbridge (10452), Hunts Point	2.7–4.5 mi N	Push	7 services delivered have no on-site page (MAT/Methadone/Suboxone/Dual Diagnosis/etc.)	P0
Queens — Astoria-Steinway (11102), LIC (11101), Forest Hills	4–10 mi E	Push	methadone clinic harlem pos 9.7 with zero on-site MAT page	P0
Brooklyn — Bushwick, Williamsburg, Bed-Stuy	6+ mi SE	Push (organic only)	/suburb/ Harlem 3-way cannibal (central + east + west variants)	P1
Upper Manhattan / Inwood	1.5 mi N	Maintain	1,727 imp/90d on borough queries at page 5+ (Brooklyn/Queens/Bronx)	P1
Midtown / Chelsea / West Village	3–5 mi S	Defer Q3	/suburb/ 64 pages with 5 location-cannibal clusters	P1
			GBP photos: 3 (vs competitor median 30+)	P1
			Suboxone blog pos 16 for 15,300 vol — no commercial pull-through	Opp
			Dual diagnosis Maps #1.98 / organic pos 19.9 — surface unmonetized	Opp
			Maps reach physically capped at ~3-4mi (Brooklyn/Queens/Bronx)	N/A

05 Competitor Churn — NYS Detox + Ascendant Lead the Field; Optimus Collapsed

Δ positions pooled across 8 priority queries × 140 cells × 2 dates. Per-GBP standalone (sibling pins independent). HQDM-portfolio sister clients stripped. Top 10 gainers + Elev8 (highlighted) + top 5 losers.

NYS Detox (8 reviews · 4.1★)	+1,599
Ascendant Intensive Outpatient	+1,293
The Bridge NYC Sober Living	+1,021
Odyssey House George Rosenfeld	+928
Elev8 Recovery (us)	+787 · all 8 kws
Bronx Recovery	+559
LESC – Su Casa	+505
Wellbridge Drug & Alcohol Rehab (UES)	+424
Mountainside Treatment Center	+368
Spring Hill Wellness	+295
Hazelden Betty Ford Foundation	+248
Wholeview	–166
Bronx Treatment Center	–208
North Jersey Recovery Center	–306
Optimus Center for Recovery NY	–1,444

Elev8 gained against a churning field with one major collapse (Optimus –1,444 across all 8 kws). The unusual story: **NYS Detox** (4.1★ × 8 reviews) is the top cumulative gainer at +1,599 despite tiny review count — the mechanism is category/service-expansion behavior, not review volume. Worth a forensic pull on their GBP change-log. **Wellbridge** (44 reviews · 4.9★) gained only +424 cumulative but blocks Elev8's UES Maps cells AND organic /suburb/upper-east-side same geography — geographic displacement target, not raw-volume target.

06 Root Cause, Ranked**PRIMARY · P0 Homepage forced to rank for 9 commercial NYC queries simultaneously**

/ ranks pos 11–21 for drug rehab in new york city (3,600 vol), drug treatment nyc (3,600), rehab nyc (3,600), rehab centers in nyc (1,900), plus 5 more variants — combined **17,100 monthly volume on one URL** while also ranking pos 5.8 on brand queries. Single URL cannot rank top 5 for 9 commercial intents AND serve as brand-homepage. **HP-01** through **HP-04** split into 4 dedicated landing pages M1–M2 (/drug-rehab-new-york-city, /alcohol-treatment-new-york-city, /drug-treatment-nyc, /rehab-centers-nyc). **HP-05** refocuses homepage on brand M3.

PRIMARY 7 commercial services delivered have no on-site page AND no GBP Services entry, compounded by GBP service-area typo

MAT (methadone-clinic-harlem ranks pos 9.7 organically with zero on-site page); Suboxone/Buprenorphine/Vivitrol (suboxone-strips blog pos 16 for 9,900 vol, no commercial pull-through); Dual Diagnosis (Maps #1.98 / organic pos 19.9 — surface unmonetized); Outpatient general (outpatient rehab nyc 499 imp pos 45); Substance-specific (opioid/heroin/fentanyl/cocaine/benzo all 0 rank). GBP description names all of these prominently but Services field omits them. Compounded by GBP service area listing "Astoria, OR 97103" (Astoria OREGON). **MAT-01 + DD-01 + GBP-01/02/03** directly target this gap.

SECONDARY /suburb/ 64-page sprawl with 5 location-cannibal clusters diluting authority

Harlem alone has 3 pages: /suburb/central-harlem-ny (7,106 imp pos 5.7 — winner), /suburb/stress-free-recovery-center-in-west-harlem-ny (1,050 imp pos 6.7 — kw-stuffed cannibal), /suburb/rehab-center-in-east-harlem-ny (658 imp pos 10.1 — kw-stuffed cannibal). Plus Hamilton Heights, Morningside Heights, Riverside, Mount Eden cannibal pairs. **PA-16** through **PA-23** = 7 specific 301 redirects across 5 location clusters. **UES-01** /suburb/upper-east-side depth upgrade (1,087 → 2,200+ words) targets the 13,200-vol Wellbridge-blocked geography.

OPPORTUNITY Borough invisibility on declared service area — Maps physically can't reach, organic hubs missing

detox queens 538 imp pos 48 + detox brooklyn 267 imp pos 65 + rehab brooklyn 180 imp pos 45 + drug rehab brooklyn 105 pos 50 + rehab bronx 103 pos 45 + drug rehab bronx 30 pos 46 + rehab queens 35 pos 59 + outpatient rehab nyc 499 imp pos 45 = **1,727 imp/90d bleeding at page 5+**. 89 of 89 out-of-grid live SERPs confirm Maps reach physically capped at ~3-4mi. **BH-01 / BH-02 / BH-03** build 3 borough hubs M1–M3 with neighborhood sub-sections + internal-link to existing /suburb/* sub-pages.

POSITIVE Only NYC pin gaining on all 8 Maps kws · Harlem owned · 132K vol touched · Optimus collapse freed cells

41% of touched commercial volume sits at pos 11–30 (Tier B push-ready). methadone-clinic-harlem 138 imp pos 9.7 already climbing without a dedicated page. Q2 marginal lift is **structural** (homepage split + borough hubs + service-page builds + /suburb/ consolidation + GBP audit fixes) — HQDM-side work, not gated on owner-side asset cadence. Optimus collapsed –1,444 across all 8 kws, freeing cells Elev8 absorbed partially.

07 Strategic Priorities — Q2 Levers (5 pillars · 44 task rows · each → specific sheet)

#	Lever and action	Owner	Sheet	Impact
A	Homepage split + brand refocus. M1: HP-01 + HP-02 build /drug-rehab-new-york-city + /alcohol-treatment-new-york-city. M2: HP-03 + HP-04 build /drug-treatment-nyc + /rehab-centers-nyc. M3: HP-05 brand-refocus rewrite. Unlocks 9 Tier B kws (17,100 vol) from one URL into 4 + brand-protected /.	HQDM On-Page	Pages_Action_List + Internal_Linking_Map	P0 - 60-90d
B	Borough organic hubs + Queens GBP signal fix. M1: GBP-01 P0 Astoria-Oregon typo fix (one-line owner edit, Queens Maps prereq) + BH-01 build /locations/brooklyn. M2: BH-02 build /locations/queens. M3: BH-03 upgrade /locations/bronx (pos 81 rewrite) + CON-05 Mount Eden 301s. Captures 1,727 imp/90d.	HQDM On-Page + Local	Pages_Action_List + GBP_Action_List	P0 - 60-90d
C	MAT + Dual Diagnosis service hubs + blog commercial pull-through. M1: MAT-01 build /services/medication-assisted-treatment + GBP-02 add 10 missing services to GBP Services list. M2: DD-01 build /services/dual-diagnosis + MAT-02 + BLG-01 + BLG-02 blog-to-service-page internal links. M3: BLG-03 /blog/what-is-rehab refresh. Monetizes Maps #1.98 dual-diagnosis surface + captures 15,300-vol MAT-adjacent blog.	HQDM On-Page + Content + Local	Pages_Action_List + Internal_Linking_Map + GBP_Action_List	High - 60d
D	/suburb/ consolidation + UES depth + GBP audit fixes. M1: CON-01/02/03 Harlem + Hamilton Hts + Morningside Hts 301s (5 URLs into 3 winners); UES-01 /suburb/upper-east-side depth (1,087 → 2,200+ words). M2: CON-04 Riverside 301s + GBP-05 photo brief (3 → 30+, Owner Ask) + GBP-06 attributes. M3: GBP-03 Products refresh (4 generic → 8 substance-specific).	HQDM On-Page + Local + Owner	Pages_Action_List + GBP_Action_List	High - 90d
E	Off-page micro-targeting rotation + LLM citation audit + content-budget redirect. M1 UES (3 DD: Lenox Hill 10021 / Yorkville 10128 / Carnegie Hill + 4 SEO Neo + 4 AI articles + 4 GBP Posts). M2 Queens + Brooklyn (3 DD: Astoria-LIC-Forest Hills + 4 SEO Neo). M3 Bronx (3 DD: Mott Haven-Highbridge-Hunts Point + 4 SEO Neo). M1 DD-02 LLM citation baseline (5 surfaces × 8 queries). Redirect ~40% content budget away from informational doorways into the 4 service-hub + 3 borough-hub builds.	HQDM Off-Page + Content	OffPage_Stack + Driving_Direction_Pins	High - 90d

08 Marginal-Value KPIs and Owner-Side Asks

- LD avg rank — M3 targets:** dual diagnosis 1.98 ≤2.0 · inpatient drug 3.42 ≤3.0 · inpatient alcohol 3.39 ≤3.0 · alcohol rehab nyc 3.79 ≤3.0 · alcohol rehab near me 5.57 ≤5.0 · addiction treatment nyc 6.61 ≤5.0 · detox near me 5.47 ≤5.0 (forensic-pull required). Grid pooled +787 → maintain or extend ≥+800.
- GSC + ranking KPIs:** Tier B commercial-volume capture 0% → ≥25% (4 split pages absorb 9 commercial queries off homepage) · methadone-clinic-harlem 9.7 → ≤5 (gated on MAT-01) · upper-east-side rehab 24 → ≤12 (gated on UES-01) · borough-query combined imp 1,727 at pos 45+ → ≥600 imp at pos ≤10 (gated on BH-01/02/03) · LLM citation share baseline + delta on 8 owned/climbing queries (gated on DD-02).
- Owner asks (one 20-min call):** #1 MAT modality scope — is methadone dispensing on-site at Harlem, or referral-only? Gates MAT hub copy + GBP Services accuracy. #2 CARF certification status — flagged pending in GBP context; confirm for E-E-A-T section of MAT + DD hubs. #3 GBP photo upload schedule — Lever D completion gated on this; HQDM delivers photo-category brief; owner commits 30+ photos across 6 categories within 60 days.
