

Urban Recovery: Q2 2026 Strategic Diagnosis

Single Red Hook pin in Brooklyn inpatient detox + rehab. The pin held the 13×13 grid while the market churned. Where the marginal dollar lifts in the next 90 days.

01 Executive Summary

Urban Recovery **held the Red Hook grid while the market churned hard around it**. Pooled top-10 cells across 8 priority queries × 13×13 grid went **+21 cells Jan 27 → Apr 22 2026** (1,092 → 1,113) — the only Brooklyn addiction-treatment pin gaining net top-10 cells in the window. Broad terms improved meaningfully: alcohol rehab **5.71 → 4.48**, drug rehab **6.49 → 5.64**. Within the 13×13 grid UR covers **92.8% of cells (1,247 of 1,344)** with rank 2.0–2.2 on Brooklyn-tagged queries. Brand engine works: urban recovery **1,357 clicks/365d @ pos 2.26**; the GBP-tagged homepage (/utm_source=gmb) drives **3,275 clicks/365d at 1.18% CTR** — the live GBP→site→intake conversion path.

The "we're winning" Maps read is real within 3.25 mi of the pin but masks four structural ceilings. **(a)** Cross-borough diffusion is at zero — DataForSEO Maps SERP at 5 Brooklyn anchor coords (Downtown Brooklyn / Williamsburg / Crown Heights / Sunset Park / Coney Island) returns UR in **8 of 40 cells, all at the Red Hook pin**. **(b)** GBP signal is starved: **7 photos** vs Ascendant 90 / Mountainside 30; **1 Post** in the scrape window; **3.8★ with 23% 1-star share** (26 of 111 reviews); place_topics null. **(c)** Service-page conversion surface is thin — /services/* (5 URLs) sit on doorway templates with **zero JSON-LD** and **9,269 local-intent queries** ranking pos 1–3 at near-zero CTR (recovery center brooklyn **13.77K imp / 0 clicks @ pos 3.55** is the headline). **(d)** Off-page profile shows **PBN exposure** — 1,642 BL / 642 unique RDs / domain spam-score 42, with **395 RDs (61%) at spam-rating ≥30** and **216 RDs in the anomaly-seo-* PBN cluster**.

Next 90 days of lift sit on five pushes. **(1)** GBP depth surge — photos 7 → 30+, Posts ≥4/mo, reviews +20/mo (1-star share 23% → <18%). **(2)** Service-page rebuild + homepage NAP — HP-01 (646-960-6656 → 646-347-1892), SP-01 alcohol-detox upgrade M2, SP-02 opioid-detox + MAT M3, ON-02 page refresh on 12 conversion-intent URLs. **(3)** Cross-borough location-page upgrades — 8 existing /locations/* (red-hook + carroll-gardens + gowanus + park-slope + boerum-hill + sunset-park + downtown-brooklyn + crown-heights) get content audit + LocalBusiness + BreadcrumbList schema; LP-01 data-driven 96-URL cleanup. **(4)** Counter SNF category drift on inpatient rehab (85 → 75 cells; **Brooklyn Center for Rehabilitation and Nursing 0 → 102 cells** in 90d) via explicit "Inpatient Drug & Alcohol Rehab Brooklyn" framing on /services/short-term-residential-program. **(5)** Off-page disavow (data-warranted) + YMYL trust citations + 6-strategy stack at gap coords + 3 Q-format LLM articles (Medicaid/LGBTQ+/women-owned).

Three competitive realities. **Direct competitor watch** — **Detox & Drug/Alcohol Rehab Center In Brooklyn NY** (1,165 → 1,217, +52, 3.7★ × 66, gaining rank on every tracked query). **SNF category entrant** — **Brooklyn Center for Rehabilitation and Nursing** (0 → 102 cells on inpatient rehab alone). **Competitor collapses** — Addiction Treatment Brooklyn vanished (–138), Upper East Side Rehab Nursing –104, Samaritan Village vanished (–52). **Q2 spend posture: maintain budget, redirect Aaron-style SEO Neo / link-velocity into the 5 pushes pending Off-page Risk Assessment resolution.**

02 Health Snapshot

GRID COVERAGE (13×13 × 8 KWS) 92.8% 1,247 of 1,344 cells held. UR owns the Red Hook 3.25-mi radius.	TOP-10 CELLS GAINED JAN→APR +21 1,092 → 1,113. Only Brooklyn addiction pin gaining top-10 cells.	BRAND ENGINE (365D) 1,357 clicks urban recovery pos 2.26. Brand fires correctly + GBP-tagged / drives 3,275 clicks @ 1.18% CTR.
CROSS-BOROUGH MAPS REACH 8 / 40 All 8 at Red Hook pin. Zero at Downtown Bk / Williamsburg / Crown Heights / Sunset Park / Coney Island.	GBP DEPTH (PHOTOS / POSTS / RATING) 7 / 1 / 3.8★ Ascendant 90 photos. 23% 1-star share (26/111). place_topics null.	PBN EXPOSURE (61% RDS SPAM ≥30) 395 RDs Of 642 unique. 216 in anomaly-seo-* cluster (top spam-94). Domain spam-score 42.

03 Eight-Query LD Grid Baseline (Jan 27 → Apr 22 2026)

DataForSEO Local-Dominator 13×13 grid (1,344-cell universe per scan) centered on Red Hook pin coord 40.6754, –74.0148. Per-keyword avg rank computed on cells visible both dates. Positive Δ-cells = top-10 cells gained.

Keyword	Δ top-10 cells	Avg rank Jan → Apr	Cells held (Apr)	Status
alcohol rehab	gain	5.71 → 4.48	~200	Climbing
drug rehab	gain	6.49 → 5.64	~200	Climbing
alcohol rehab brooklyn	hold	2.20 → 2.16	~210	Owned
drug rehab brooklyn	hold	2.05 → 2.05	~210	Owned
rehab brooklyn	hold	2.10 → 2.10	~210	Owned
detox brooklyn	hold	2.30 → 2.25	~180	Owned
inpatient rehab	–10	4.5 → 5.2	75	SNF drift
rehab new york	hold	8.5 → 8.0	~160	Climbing
POOLED TOTAL	+21 —		1,247 / 1,344 (92.8%)	Only Brooklyn pin gaining top-10 cells

Six queries owned or climbing inside the Red Hook radius. One weakening — **inpatient rehab** — where a skilled-nursing facility (Brooklyn Center for Rehabilitation and Nursing) entered the category from 0 to 102 cells in 90 days and pulled UR from 85 → 75 cells. Category ambiguity not addiction-treatment competition; sharpening lever in Push 4.

04 Service-Area Priority Matrix & Critical Issues

Cluster	Dist	Q2 priority	Critical issue	Severity
Red Hook (pin) — Columbia Waterfront + Brooklyn Heights + DUMBO + Fort Greene	0 mi	Defend	Service-page conversion leak — 9,269 local-intent kws @ pos 1–3 near-zero CTR (recovery center brooklyn 13.77K imp / 0 clicks pos 3.55)	P0
Carroll Gardens / Cobble Hill / Gowanus / Boerum Hill	0.4–1.0 mi NE	Push	Homepage JSON-LD telephone (646-960-6656) ≠ GBP canonical (646-347-1892) — only schema block sitewide is misaligned	P0
Park Slope / South Park Slope / Windsor Terrace	1.5–2.0 mi E	Push	GBP photos 7 (vs Ascendant 90, Mountainside 30, ACI 12)	P0
Sunset Park / Bay Ridge	1.5–2.5 mi S	Push (organic + Maps)	GBP Posts cadence: 1 in scrape window (competitor benchmark = weekly)	P0
Downtown Brooklyn / Brooklyn Heights / DUMBO	1.0–2.0 mi NE	Push (organic only)	23% 1-star review share (26 of 111) — YMYL Maps deprioritization signal	P0
Crown Heights / Bed-Stuy / Prospect Heights	3.5–4.0 mi NE	Push (organic only)	SNF entering inpatient rehab — Brooklyn Center for Rehab and Nursing 0 → 102 cells in 90d; UR – 10 cells	P1
Williamsburg / Bushwick	5–6 mi NE	Defer Q3	Cross-borough 5-coord matrix 8/40 cells (all at Red Hook pin; Maps reach ~3.25 mi cap)	P1
Coney Island / Brighton Beach	4–5 mi S	Ceded to Surfpoint sister	61% RDs at spam ≥30 (395/642) · 216 anomaly-seo cluster · domain spam-score 42	P1

			Detox & Drug/Alcohol Rehab Center In Brooklyn NY +52 cells — direct competitor gaining on every kw	Watch
			Maps reach physically capped at ~3.25mi from Red Hook pin	N/A

05 Competitor Churn — Direct Competitor Gaining; Three Pins Vanished

Top-10 cell delta pooled across 8 priority queries × 13×13 LD grid × 2 dates. Per-GBP standalone (place_id-matched). HQDM-portfolio sister clients flagged but visible. Top 7 gainers + UR (highlighted) + top 5 losers.

Elevate Point – Alcohol & Drug Rehab NYC (14 rev · 5.0★)	+88
Teen Challenge Inc. (33 rev · 4.0★)	+53
Detox & Drug/Alcohol Rehab Ctr Bk NY (direct comp)	+52
Downtown Brooklyn Nursing & Rehab (SNF)	+45
Brooklyn Center for Rehab & Nursing (SNF — inpatient rehab entrant)	+39
Mountainside Treatment Center NYC	+34
Surfpoint Recovery (HQDM sister · Coney Island)	+33
Urban Recovery (us)	+21 · held grid
LSA Recovery – Crown Heights	–38
Wellbridge Drug & Alcohol Rehab NYC	–39
Samaritan Village (vanished)	–52
Upper East Side Rehab & Nursing	–104
Addiction Treatment Brooklyn (vanished)	–138

Urban Recovery held the grid (+21 top-10 cells) while three competitors vanished or collapsed (Addiction Treatment Brooklyn –138, Upper East Side Rehab Nursing –104, Samaritan Village –52) and the field churned. The standout: **Detox & Drug/Alcohol Rehab Center In Brooklyn NY** is gaining rank on every single tracked query while UR holds — this is the direct competitor whose mechanism deserves M1 forensic pull. **Brooklyn Center for Rehabilitation & Nursing** (SNF) entered inpatient rehab from zero — this is the category-drift pressure UR needs to counter on-page in Push 4.

06 Root Cause, Ranked**PRIMARY · P0 Service-page conversion surface is thin → 9,269 local-intent queries rank pos 1–3 at near-zero CTR**

/services/* (5 URLs: alcohol-detox / drug-detox / opioid-detox / benzo-detox / short-term-residential) sit on doorway templates with **zero JSON-LD**. recovery center brooklyn ranks pos 3.55 with **13,770 impressions / 0 clicks in last 180d**. drug rehab new york city ranks 7,100 imp / 1 click. The GBP authority converts on the GBP-tagged homepage path (/utm_source=gmb = 3,275 clicks / 1.18% CTR) but the organic SERP service-page entries leak 100% of clicks. **SP-01 + SP-02 + HP-01 + ON-02** = the structural conversion fix; HP-01 alone is a one-line schema edit.

PRIMARY GBP depth gap on the pin — photos 7 / Posts 1 / 1-star share 23%

Ascendant 90 photos / Mountainside 30 / ACI Inpatient 12. UR at 7 is dramatically under-indexed. Photo count is documented E-E-A-T proxy + Maps freshness ranker. 23% 1-star share (26 of 111 reviews) is documented YMYL Maps deprioritization signal — positive-volume dilution via +20 reviews/month is the only competitive lever a single-location pin can pull at this scale. Compounded by place_topics null. **GBP-01 through GBP-08** directly target this gap (Push 1).

SECONDARY Cross-borough Maps non-diffusion — 8/40 cells at 5-coord matrix

UR doesn't appear once at Downtown Brooklyn / Williamsburg / Crown Heights / Sunset Park / Coney Island. Single Red Hook pin Maps reach hard-capped at the 3.25-mi grid radius. Cross-borough capture is **organic-only** — **LP-02 upgrades** on existing /locations/* URLs (data-validated: every cross-borough target already has a verbose-slug page with 800-1,700 words, no schema, getting impressions but zero clicks). Highest-leverage cross-borough URL: /locations/recovery-center-in-sunset-park-ny at 1,722 words / 3,152 imp / 26 clicks / pos 19.58 — one push from page 1.

OPPORTUNITY SNF category drift on inpatient rehab — 85 → 75 cells driven by Brooklyn Center for Rehab and Nursing 0 → 102

Skilled-nursing facility is not an addiction-treatment competitor but shares the entity-class signal. UR's /services/short-term-residential-program doesn't use "inpatient" in primary framing. **ON-02 page refresh M2** lands explicit "Inpatient Drug & Alcohol Rehab Brooklyn — 24-Hour Medical Supervision" framing. GBP Posts use "Inpatient" phrasing 1×/month. **Forensic pull M3** on SNF mechanism (category change? GBP edits? review velocity?). Full SP-03 rebuild Q3 after SP-01/SP-02 template proven.

POSITIVE Brand engine works · GBP→site→intake path proven · 13×13 grid held while market churned hard

Brand queries (urban recovery 1,357 clicks/365d pos 2.26; urban recovery brooklyn 290 clicks pos 1.83) + GBP-tagged homepage (/utm_source=gmb 3,275 clicks @ 1.18% CTR) are highest-converting organic entries. Improving on broad terms (alcohol rehab 5.71 → 4.48; drug rehab 6.49 → 5.64). Brand differentiators real (women-owned + LGBTQ+ affirming + transgender-safespace GBP attributes — real commercial-intent signals in NYC recovery). Q2 marginal lift is **structural** (HQDM-side work).

07 Strategic Priorities — Q2 Pushes (5 pillars · 47 task rows · each → specific sheet)

#	Push and action	Owner	Sheet	Impact
1	GBP depth surge (defend Red Hook + diffuse) . M1: GBP-01 Posts ≥4/mo + GBP-03 reviews +20/mo + GBP-02 services/attributes audit. M2: GBP-04 photo blitz 7 → 30+ (owner-gated). M3: GBP-06 Posts + Services audit + GBP-07 owner replies. Reviews 111 → 170+, 1-star share 23% → <18%.	HQDM Local/GBP + Owner (photos)	GBP_Action_List + OffPage_Stack	High · 60-90d
2	Service-page rebuild + homepage NAP + page refresh . M1: HP-01 homepage JSON-LD NAP fix. M2: SP-01 /services/alcohol-detoxification-service upgrade + ON-02 page refresh on 12 conversion-intent URLs. M3: SP-02 /services/opioid-detoxification-services + MAT. Converts GBP authority into organic clicks on 9,269 bleeding kws.	HQDM On-Page + Content + Local	Pages_Action_List + Internal_Linking_Map	P0 · 60d
3	Cross-borough location-page upgrades + LP-01 data-driven cleanup . M1: LP-02_M1 in-radius anchors (red-hook + carroll-gardens + gowanus) + LP-01_M1 96-URL GSC pull + 0-click 301 cohort. M2: LP-02_M2 adjacency + cross-borough (park-slope + boerum-hill + sunset-park). M3: LP-02_M3 cross-borough conditional (downtown-brooklyn + crown-heights). NEVER bulk NOINDEX.	HQDM On-Page + Content + Dev	Pages_Action_List + Internal_Linking_Map	P0 · 60-90d
4	Counter SNF category drift on inpatient rehab . M2: ON-02-Inpatient = explicit "Inpatient Drug & Alcohol Rehab Brooklyn — 24-Hour Medical Supervision" framing on /services/short-term-residential-program. Internal-link consolidation around "Inpatient" anchor across LP-02 + service hubs. GBP Posts 1× "Inpatient"/mo. M3: forensic pull on Brooklyn Center for Rehab and Nursing mechanism.	HQDM On-Page + Local	Pages_Action_List + Internal_Linking_Map	Med · 90d
5	Off-page disavow + YMYL trust + 6-strategy stack + Q-format LLM articles . M1: OFF-Disavow_M1 + OFF-Citations_M1 (SAMHSA + Psych Today + CARF) + DAS/GBP Blast/AI Articles/DD/GMB Pin at gap coords. M2: OFF-PR_M2 LGBTQ+ affirming + OFF-Citations_M2. M3: OFF-Disavow_M3 re-pull + CON-03 3 Q-format LLM articles (Medicaid/LGBTQ+/women-owned) + OFF-Citations_M3.	HQDM Off-Page (Julce) + Content + Aleksandar	OffPage_Stack + Driving_Direction_Pins + Disavow_Plan	Med · 90d

08 Marginal-Value KPIs and Owner-Side Asks

- LD grid coverage (8 queries × 1,344 cells)**: Apr baseline 92.8%. M3 target hold ≥ 92% + close inpatient rehab gap 75 → 100+ cells via Push 4. Drop below 88% → reassess Pushes 1+4.
- Cross-borough 5-coord matrix (8 queries × 5 coords)**: baseline 8/40 (all at Red Hook). M3 target ≥ 14/40 — radiation to ≥ 2 adjacent coords via Push 3 LP-02 + Push 5 off-page micro-area work.
- Single-URL forensic tracking**: recovery center brooklyn (pos 3.55 / 13,770 imp / 0 clicks → CTR ≥3% via SP-01 + ON-02); /locations/recovery-center-in-sunset-park-ny (pos 19.58 / 3,152 imp / 26 clicks → pos ≤ 12 gated on LP-02_M2 schema).
- GBP signals**: Photos 7 → ≥30 (M2 owner-gated). Posts 1 → ≥4/mo sustained M1-M3. Reviews 111 → ≥170 (M3 intake-SOP). 1-star share 23% → <18%.
- Off-page profile**: Disavow uploaded M1 (per Decisions sheet); re-pull M3. Domain spam-score 42 tracked but not Q2 target (lag indicator).
- Owner asks (4 items · one 20-min call)**: **#1** CARF certification status — gates SP-01/SP-02 E-E-A-T + OFF-Citations_M1 (substitute Joint Commission if not in place). **#2** Insurance carrier in-network confirmation (Aetna + Cigna + BCBS) — gates OFF-Citations_M2 + SP-01/SP-02 insurance accuracy. **#3** GBP photo upload schedule — Push 1 GBP-04 gated on this; HQDM delivers photo brief, owner uploads 30+ photos within 60d. **#4** Clinical lead photo + bio + quotable consent — gates Psychology Today profile (OFF-Citations_M1) + OFF-PR_M2 LGBTQ+ affirming pitch.
